

I am writing to voice my support for K-LOVE, an FM translator radio station. My whole family listens to only K-LOVE radio, everyday. It is a constant and necessary presence in our lives. K-Love keeps our minds focused on worship all the time, without commercial interruptions. It is the family-safe station we have been looking for in a radio station.

I feel that the public opinion speaks for itself in support of K-LOVE. If LPFM stations were given priority there is a chance my city could lose its' K-LOVE station. Since K-LOVE is listener supported, that shows its' listeners want it on the air. I feel it is not right for that to be taken from us as listeners, since our financial support is similiar to us voting to keep K-LOVE as our FM station.

Lastly, K-LOVE promotes a positive message to my community. I play it at public events at every chance I get. It is a means of sharing positive, God-related messages to those who may be new to them and for those who embrace the messages. I do not support LPFM stations being granted priortiy over current FM translator services.
